### BILLING AND PROXY INFORMATION

Brandeis University mails one paper bill to the student prior to the start of each semester. To ensure your bill is received in a timely manner, you must add a billing address in Sage. (Please refer to the Sage instructions in your admissions packet.) The student will be notified of all subsequent semester account activity by e-mail.

Brandeis will also send student account activity e-mails to any person the student has registered as a Sage proxy. A proxy will receive activity e-mails and may access the student's account balance to view details. Proxies also can make payments online from the student's Sage account. We strongly recommend you register the primary person(s) responsible for payment of your bill for Sage proxy access. Proxy registration details are included in your Sage instructions.
