Annual Report on Program Student Learning Outcomes Assessment

Program: Post Baccalaureate Pre-Medical Program

Program Contact: Abby Voss (Program Manager)

Learning Objectives

Student participating in and completing the Post Baccalaureate Pre-Medical Program are expected to:

1. Develop self-efficacy, flexible thinking, and demonstrate self-reflection.
2. Value and understand academic preparation needed to succeed in their chosen profession.
3. Demonstrate academic mastery in their pre-health pre-requisite coursework.
4. Value extracurricular experiences in which they learn about their chosen field and develop the competencies needed to succeed.
5. Have a thorough understanding of what is required for their health professions program application.
