Request for a Quantitative Reasoning Course

Please return this form with a copy of the course syllabus to Paul Miller (pmiller@brandeis.edu)

NAME___________________________________________

DEPT__________________________ PHONE________________________

E-MAIL_________________________

Please provide information for each course (and section if there are multiple sections) you want listed as a Quantitative Reasoning Course, and be sure to attach a course syllabus, which includes the titles of any textbook(s) used.

Course name and number: _____________________________________________

Planned frequency of the class (e.g. annual?): ____________________________

Which students, and how many, do you expect to take the class (are there any prerequisites)? ______________________________________________________

Please describe the types of quantitative data or mathematical methods that will be used in the course (e.g. statistics, simultaneous equations, reading graphs):

____________________________________________________________________

____________________________________________________________________

____________________________________________________________________

Approximately what % of the total course (including grade) is based on or requires quantitative reasoning (or how many assignments and what fraction of each one)? ______________________________________________________

Please provide an example of a few problems or issues addressed in your course that require quantitative reasoning of the student. We would love to see a problem set or homework assignment included as a separate attachment, but alternatively please use the following space:

____________________________________________________________________

____________________________________________________________________

____________________________________________________________________

____________________________________________________________________

____________________________________________________________________

If approved, the course will remain approved, but must be reassessed if it is changed substantially.
