### Che cos'è?

La giornata della Lingua Italiana is a friendly competition among high school students created to motivate and to spark interest in learning Italian. The competition, organized and sponsored every year by MITA in collaboration with a local university, attracts students and their teachers to campus for a day of fun and learning. This year La giornata collaborates with the Italian Studies Program at Brandeis University. Each participating high school will create a skit, a song, or other form of expression in Italian about the topic chosen by the organizing committee. The skits will be created and practiced beforehand and then presented on the day of the competition. Each school's entry will be evaluated by a panel of judges using specific criteria.

This year's focus is: MADE IN ITALY

The topic can be presented in Italian as a:

- Song
- Skit
- Interview
- Dance (with dialogue)
- Impersonation
- Narrative
- Advertisement
- How to... (i.e. How to make Spaghetti Carbonara)
