At Brandeis, you are encouraged to learn about a wide variety of human societies, cultures, and countries and about causes and consequences of differences among racial, ethnic, religious, and other groups. Listed below are a sampling of the Fall 2010 courses that address these issues; we hope that you will consider including some of them in your studies. They are grouped under “Gender and Sexuality,” “Religion, Race, and Culture,” and “Global Perspectives,” though naturally many of the courses intersect these groupings.
