ENVS 89A: Environmental Studies Internship

HSSP 89A: Health Internship & Analysis

BUS 89A: Work in the Global Business Environment

EL 94a Practicum Options

Immigrant Support Services Practicum

Course Link: IGS 10A Intro to Intl' & Global Studies; Instructor Marci McPhee
A new community-engaged practicum is being developed to link Brandeis students to immigrant populations in Waltham. Research and address information and resources needs of immigrant members of our community. Offered Wednesdays 1-1:50pm

Famni Ki Li Ansamn Haitian Literacy Project

Course Link: COML 166B1 or FREN 164A; Professor Jane Hale
An opportunity to work with the development of a non-profit organization that provides Haitian-Creole children's books to libraries, schools, organizations and families in the Boston area; this practicum also needs website development and financial management students.

You must be enrolled in the course link to enroll in a practicum.

Community-Engaged Learning

LGLS 161b: Advocacy for Policy Change Professor Melissa Stimmel

This hands-on course invites students to address concrete social problems through public policy reform; provides background in theories, advocacy skills, networks, and key players that drive the legislative process focusing on policy change at the statehouse level.

HSSP Community-Engaged Practicum

Course Link: HSSP 100B: Epidemiology, Biostatistics, and Population Health
An exciting opportunity to work with community organizations to research, evaluate, and address childhood obesity in the Greater Waltham area. Provides an in depth orientation to the science of epidemiology, the quantitative foundation for public health policy. Case studies examine how environmental, physical, behavioral, psychological, and social factors contribute to the disease burden of populations.
