WHY BRANDEIS

• We are a premiere research institution consistently ranked among the nation’s best universities.

• We are widely recognized for our academic rigor, the excellence of our teaching, and the quality and diversity of our student body.

• Named for the late Supreme Court Justice Louis D. Brandeis, we take pride in our commitments to social justice initiatives around the world.

Programs with a pulse on your industry

Graduate Professional Studies is a division of the Rabb School, one of four graduate schools at Brandeis University. We have proudly been applying best practices in online course delivery for more than a decade.

Designed for working professionals looking to advance their careers along with their educational goals, our online graduate programs are highly interactive, flexible and accessible.

Our curriculum captures the latest applied technologies and industry advancements while incorporating the rigorous standards of excellence that make Brandeis one of the top universities in the country.

“As an online learner at Brandeis GPS, I found the coursework and support resources convenient and accommodating. In fact, I rarely felt as though my studies were an interruption. What I learned was immediately applicable, and I continue every day to benefit from the understanding the courses gave me.”

— Scott Paddock, GPS Student

QUICK FACTS ABOUT BRANDEIS GPS

- Three 10-week terms available in fall (Sept.-Nov.), spring (Jan.-Mar.) and summer (May-July).
- Graduate programs can be completed within 1.5 to five years.
- Students range between 25 and 60+ years old.
- More than 1,400 students have earned master’s degrees with GPS since its launch in 1997.
- 98 percent of alumni responding to our recent survey would recommend Brandeis GPS to colleagues.
- GRE and GMAT scores are not required for admission.

WHY GPS?

- Experience Brandeis standards of excellence
- Engage in online classes that are capped at 20 students
- Learn from industry practitioners
- Create meaningful professional connections in your field
- Apply the latest industry techniques
- Receive personal student support

INDUSTRY

The adjunct instructors who teach our courses are leaders in their fields and bring an array of relevant experiences and connections to their classrooms. As working professionals themselves, they understand our students’ needs and schedules.

Our programs are shaped by professional advisory board members who capture the latest applied technologies and best practices of their respective industries. Instructors and advisory board members represent more than 150 organizations nationwide, including:

- Amgen
- Bank of America
- Boston Consulting Group
- EMC
- IBM
- Merck
- Oracle Corporation
- Rapid7
