WHY THIS PROGRAM?

The confidence to protect, the influence to prevent.

Developed with industry experts, this STEM-designated program will equip you to:

✓ Develop a business case for investing in cybersecurity and risk management.
✓ Inform and influence senior executives to commit to obtaining and maintaining this investment.
✓ Oversee the planning, acquisition and evolution of secure infrastructures.
✓ Assess the impact of security policies and regulatory requirements on complex systems and organizational objectives.

REQUIRED COURSES:

• Foundations of Information Security
• Information Security Management
• Principles of Computer Incident Response and Investigation
• Principles of Risk Management in Information Security
• Leading Security in Complex Organizations
• Information Security and Compliance

SAMPLE ELECTIVES (SELECT 4):

• Cloud Security
• Secure Mobile Applications and Data
• Network Security
• Identity and Access Management and Control
• Communication for Effective Leadership

“What I learned at Brandeis GPS was immediately applicable, and I continue to benefit every day from the understanding the courses gave me.”

— Scott Paddock, GPS Student
