WHY GPS?

Industry driven. Small by design.

- Experience Brandeis standards of excellence
- Engage in online classes that are capped at 20 students
- Learn from industry practitioners
- Create meaningful professional connections in your field
- Apply the latest industry techniques
- Receive personal student support

WHY THIS PROGRAM?

Our project management master’s degree stands apart because it equips students to:

- Deliver a project’s business value while realizing time, cost, scope and quality goals.
- Develop hard and soft skills essential for project success.
- Build a portfolio of techniques and apply them to projects of varying size and complexity.

REQUIRED COURSES:

- Foundations of Project Management
- Organizational Leadership and Decision-Making
- Project Scheduling and Control
- Negotiating and Conflict Resolution
- Professional Communications
- Risk Management in Projects and Programs
- Program Management: Theory and Practice

SAMPLE ELECTIVES (SELECT 3):

- Management of Virtual and Global Teams
- Agile Project Management
- Challenges in Project Management
- Procurement and Contract Management

“...The curriculum was challenging and real-world related. The principles of project management I learned can really be applied to almost any field and aspect of life, but my new knowledge gave me the confidence to start my own business and apply project management tools and techniques to non-traditional fields. I loved the flexibility of the classes, and was able to complete my degree from across the country.”

— Michelle Welsh, GPS Student
