Join The Brandeis Multidisciplinary Consortium

- Our **first objective** is to assemble a multidisciplinary group of graduate students who are driven with the desire to produce novel ideas, discussions and projects.

- Our **second objective** is to birth, craft, hone and train the skills needed to create ideas that span multiple fields, obtaining help from sources such as the Office of Technology and Licensing and the MakerLab.

- Our **third objective** is to create external partnerships and find the funding needed to implement our ideas such as grants from SPARK, SPROUT, the Festival of Arts, DeisImpact and beyond.

- Join the consortium and become a committee member. Everyone is welcome, everyone has something to offer. Contact somde@brandeis.edu

- The consortium is created by Clair Dahm, Sohani Sirdeshmukh, Steven Weglinski, and Vivekanand Pandey Vimal.
