Instructions for International Financial Aid Applicants

Complete the College Board's CSS/Financial Aid PROFILE to be considered for need-based scholarships as an international applicant.

The PROFILE is a two-part application. Begin the process by registering with the College Scholarship Service online.

Once you have registered, you will be able to access your online application immediately. The application will be customized based on your registration information and your college choices. For Brandeis University, some additional questions in Section Q of the PROFILE and some additional supplements may be required, so it is important to include Brandeis University (CSS Code 3092) as one of the recipients of your application when you register.

Please note that we only require financial information for parents and step-parents living in your household. Proceed without completing the portion of the form that asks for information on parents and step-parents living outside your household. After submitting the CSS Profile with only your household’s information, contact Monique Howell at mhowell@brandeis.edu to have the noncustodial parent section waived.

If you wish to make any changes to your PROFILE application after you have submitted it online, you will need to contact Monique Howell at mhowell@brandeis.edu with your corrections.
