CAREER DEVELOPMENT
Career development is a lifelong process of exploration grounded in self-reflection, research and practical application. Students and alumni are encouraged to engage with our office early and often to discover who they are, what they are interested in, and how to get there.

Career & Major Exploration
The career exploration process begins early in a student’s college career. With support from career counselors and academic advisors, students connect their knowledge, interests, values and abilities to majors and career opportunities.

Job & Internship Search
A well thought-out strategy is key to securing a job or internship. Hiatt helps students and alumni to strategize, identify industries of interest, craft resumes and cover letters and develop key communication skills for networking and interviewing.

Graduate & Pre-Law Advising
Hiatt has a dedicated pre-law and graduate school advisor who counsels students and alumni on the decision-making and application process.

Alumni Services
Hiatt provides career services for life for all undergraduate alumni, including one-on-one advising, regional events, monthly career webinars and online resources. Visit alumni.brandeis.edu/careers.

EMPLOYER ENGAGEMENT
Hiatt’s employer relations team engages employer partners in innovative programs to recruit Brandeis students and alumni.

Campus Recruiting
Employer spotlights, information sessions and interviews are a few of the opportunities students have to speak one-on-one with recruiters and learn more about organizations. Students can also explore career areas outside of the typical recruiting process through employer site visits and webinars.

Job & Internship Postings
Brandeis students and alumni can access 19,000 diverse job and internship postings annually through Hiatt’s B.hired system and consortia databases including the Liberal Arts Career Network and the National Internship Consortium.
