Orthodontia Expenses and Your WageWorks Healthcare Flexible Spending Account

It’s easy to use your WageWorks® Healthcare Flexible Spending Account (FSA) to pay for eligible orthodontia expenses for you, your spouse, and your eligible dependents. Eligible orthodontia expenses are those not paid by your dental insurance or any other insurance plan.

Simply find out in advance what portion of your orthodontia expenses your dental insurance plan covers. Then pay only your out-of-your pocket costs with your Healthcare FSA using one of several convenient payment options.

Convenient Payment Options

Pay with Your WageWorks Healthcare Card
Pay for eligible orthodontia expenses with your WageWorks® Healthcare Card associated with your WageWorks Healthcare FSA. You’ll love the swipe-and-go convenience of this preloaded debit card.

Be sure to save the detailed receipt and payment contract provided by your orthodontist. In some cases the IRS may require you to verify your card transactions, submit a claim, and verify expenses.

Pay Your Orthodontist Directly
Pay your orthodontist directly from your Healthcare FSA using the convenient “Pay My Provider” feature of your account. Make a single payment to your orthodontist, or set up recurring payments—it’s up to you.

MONTHLY PAYMENTS
Setting up monthly recurring Pay My Provider payment requests is the easiest way to pay monthly orthodontic expenses. This method also ensures your orthodontic payments will be spread out across multiple plan years so you can make the most of your insurance plan coverage.

Elect a recurring monthly Pay My Provider request through your WageWorks account up to 10 days before you want the first check to be sent to your orthodontist.

You’ll need to submit a copy of your orthodontia service contract through your WageWorks account when you set up monthly recurring payments. Please make sure your contract includes the following: 1) provider name, 2) patient name, 3) description of service, 4) payment schedule (including dates of service), and payment amount.

ONE-TIME PAYMENT
Elect a one-time Pay My Provider request through your WageWorks account as soon as your orthodontic service has started. Your provider will be paid as soon as you submit your payment documentation (usually a detailed receipt and an orthodontia service contract) and your documentation is verified.
## Orthodontia Reimbursement Eligibility

### Reimburse Yourself for Payments You’ve Already Made

Get reimbursed for eligible orthodontia expenses you’ve paid out of pocket using the convenient “Pay Me Back” feature of your Healthcare FSA.

If you paid a lump sum to your orthodontist in the prior calendar year and were reimbursed a prorated amount, the unclaimed amount can be reimbursed in the current plan year (if you are still receiving orthodontia services) by providing a copy of the payment information, claim form, and a letter indicating the amount you were reimbursed in the prior year.

### The Fine Print

- Make a one-time payment or set up recurring payments for orthodontia services provided during the current plan year.
- Make sure your Healthcare FSA balance is sufficient to cover the amount of each payment. WageWorks doesn’t issue partial payments, and insufficiently funded requests will be canceled.
- One-time payment requests can be made once the service has begun, but not before.
- Recurring payment requests can be made 10 days prior to the beginning of the service date, but not before.
