**Educational Workshop**

The REU students and MRSEC grad and undergrad students participated in a workshop arranged by Karen Burns, Education Specialist at the VA Aquarium & Marine Science Center, and Deidre Gibson, Associate Professor of Marine & Environmental Science at Hampton University. They also gave presentations to local high school students.

**Division of Science Undergraduate Poster Session**

The REU students each conducted independent research with MRSEC labs on campus during Summer 2014. They presented their findings at the Brandeis symposium at the end of the summer.
