

# Brandeis University

## **December 17, 2015**

### Planned Agenda:

- Continued discussion regarding the vetting process for volunteers for panels used in the Special Examiner's Process (SEP)
- Analysis of the campus climate survey on sexual misconduct by race, ethnicity and international student status

For the process of selecting panelists for the SEP, the Task Force developed a questionnaire to be sent to all faculty and staff who volunteered to serve. The committee agreed upon the final draft of the questionnaire and agreed that they should also seek the approval of the Faculty Senate and the UAC before moving forward.

Regarding the topic of the campus climate survey data by race, ethnicity and international student status the committee reviewed the initial results and began the discussion of a process for releasing the results to the campus community. Additional discussion was needed and the topic was tabled until the next meeting.
