The Combined Plan Program at Columbia University

The Combined Plan Program is founded on articulation agreements between Columbia University and nearly 100 affiliate institutions nationwide.

To be considered in our competitive review process, we recommend that an applicant successfully meets all of the following requirements:

- Full-time enrollment at an affiliate institution for at least the past three years
- An overall GPA in accordance with the agreement that your institution has reached with Columbia. We recommend that students have a minimum overall GPA of 3.30. For students attending affiliates with agreements prior to 2017, an overall GPA of 3.30 or higher is required. For students attending affiliates with agreements in 2017 or later, a GPA of 3.50 or higher is required. Please speak to your campus liaison to confirm which GPA is required for your institution.
- Minimum pre-engineering GPA of 3.30, inclusive of all science and mathematics prerequisite coursework. Additionally, a minimum grade of B (3.0) must be obtained on the first attempt in all science and mathematics prerequisite coursework.
- Successful completion of both the foundational and major-specific prerequisite coursework by the end of the spring semester of application
- Successful completion of the degree and major requirements of the affiliate institution by the end of the spring semester of application
- Favorable recommendation letters: one each from the Combined Plan liaison, a science instructor and a math instructor
- Proficiency in English as directed by Columbia on our website
Prerequisite Coursework

A student should successfully complete the equivalents of the following Columbia courses at their home institution. Liaisons at each school are responsible for determining which classes fulfill these Columbia prerequisite courses and will advise students accordingly.

Foundational Courses Required of All Majors

Note that some majors may require additional specific courses replacing or adding to the following requirements, detailed in the major-specific course lists.

**Mathematics**
- Calculus I, II and Multivariable Calculus for Engineers and Applied Scientists (Math UN1101, MATH UN1102, and APMA E2000)

**Physics**
- Introduction to Mechanics and Thermodynamics (PHYS UN1401)
- Introduction to Electricity, Magnetism and Optics (PHYS UN1402)

**Chemistry**
- General Chemistry I Lecture (CHEM UN1403)

**Lab Requirement (choose one of the following two)**
- Introduction to Experimental Physics Lab (PHYS UN1493/4) or General Chemistry Lab (CHEM UN1500)

*Note that some majors require a specific lab in either chemistry or physics, or both.*

Major-Specific Coursework

Courses noted with a * may be taken either before or during enrollment at Columbia.

**Applied Mathematics**

*Mathematics*
- Ordinary Differential Equations (MATH UN2030)

*Physics*
- Introduction to Classical and Quantum Waves (PHYS UN1403)

*Additional*
- Introduction to Experimental Physics Lab (PHYS UN1493/4)

*Students may take a lab other than Physics lab: Astronomy, Astrophysics, Biology or Chemistry.*

*Choose one of the following three:*
- General Chemistry I Lecture (CHEM UN1403) or Environmental Biology I: Elements to Organisms (EEEB UN2001) or Introductory Biology I: Biochemistry, Genetics and Molecular Biology (BIOL UN2005)

*The department strongly recommends Python*

**Applied Physics**

*Mathematics*
- Ordinary Differential Equations (MATH UN2030)

*Physics*
- Introduction to Classical and Quantum Waves (PHYS UN1403)
- Introduction to Experimental Physics Lab (PHYS UN1493/4)

*Additional*
- Choose one of the following two:
  - General Chemistry I Lecture (CHEM UN1403) or Environmental Biology I: Elements to Organisms (EEEB UN2001) or Introductory Biology I: Biochemistry, Genetics and Molecular Biology (BIOL UN2005)

*The department strongly recommends Python*

**Biomedical Engineering**

*Mathematics*
- Introduction to Applied Mathematics: Ordinary Differential Equations and Linear Algebra (APMA E2101)

*Or, students must take both an ODE and a Linear Algebra course.*

*Physics*
- Introduction to Classical and Quantum Waves (PHYS UN1403)

*Chemistry*
- General Chemistry II Lecture (CHEM UN1404)
- General Chemistry Lab (CHEM UN1500)

*Computer Science*
- Introduction to Computing for Engineers and Applied Scientists in Python (ENGI E1006)

*Additional*
- Introductory Biology I: Biochemistry, Genetics and Molecular Biology (BIOL UN2005)
- Introductory Biology II: Cell Biology, Development and Physiology (BIOL UN2006)

*Introduction to Electrical Engineering (ELEN E1201)*

**Chemical Engineering**

*Mathematics*
- Choose one of the following two:
  - Ordinary Differential Equations (UN2030) or Introduction to Applied Mathematics: Ordinary Differential Equations and Linear Algebra (APMA E2101)

*Physics*
- Introduction to Experimental Physics Lab (PHYS UN1493/4)
Major-Specific Coursework
Courses noted with a * may be taken either before or during enrollment at Columbia.

Chemical Engineering Cont.
**Chemistry**
General Chemistry II Lecture (CHEM UN1404)
General Chemistry Lab (CHEM UN1500)
Organic Chemistry I Lecture (CHEM UN2443)
*Organic Chemistry I Lab (CHEM UN2495)
*Organic Chemistry II Lab (CHEM UN2496)

**Computer Science**
Introduction to Computing for Engineers and Applied Scientists in Python (ENGI E1006)
The department strongly recommends Python, but will accept C/C++, Java or MATLAB on a case by case basis.

Civil Engineering
**Mathematics**
Introduction to Applied Mathematics: Ordinary Differential Equations and Linear Algebra (APMA E2101)
Or, students must take both an ODE and a Linear Algebra course.

**Computer Science**
Introduction to Computer Science and Programming in MATLAB (COMS W1005)
The department strongly recommends MATLAB over other languages, though it will accept any language.

**Additional**
Earth: Origin, Evolution, Processes and Future (EESC UN1011) or an equivalent introductory course in Geology/Geosciences
*Mechanics (ENME E3105)

Computer Engineering
**Mathematics**
Introduction to Applied Mathematics: Ordinary Differential Equations and Linear Algebra (APMA E2101)
Or, students must take both an ODE and a Linear Algebra course.

**Computer Science**
Discrete Mathematics (COMS W3203)
Introduction to Computer Science and Programming in Java (COMS W1004)
Please note that sufficient knowledge of computer programming is needed in order to take Data Structures in Java (COMS W3134).

**Additional**
Introduction to Electrical Engineering (ELEN E1201)

Chemistry
General Chemistry II Lecture (CHEM UN1404)
General Chemistry Lab (CHEM UN1500)

**Additional**
*A Better Planet by Design (EAEE E2100)
Choose one of the following two:
*Earth’s Environmental Systems: The Climate System (EESC UN2100) or
*Earth’s Environmental Systems: The Solid Earth System (EESC UN2200)

**Choose one of the following three:**
Organic Chemistry I Lecture (CHEM UN2443)
Introduction to Classical and Quantum Waves (PHYS UN1403) or
Introductory Biology I: Biochemistry, Genetics and Molecular Biology (BIOL UN2005)

The department requires Python for the introductory Computer Science requirement. Only students attending affiliates that do not offer Python may substitute another language.

Electrical Engineering
**Mathematics**
Introduction to Applied Mathematics: Ordinary Differential Equations and Linear Algebra (APMA E2101)
Or, students must take both an ODE and a Linear Algebra course.

**Physics**
Introduction to Classical and Quantum Waves (PHYS UN1403)

**Computer Science**
Sufficient knowledge of computer programming is needed in order to take Data Structures with C/C++ (COMS W3136) or Data Structures in Java (COMS W3134).

**Additional**
Introduction to Electrical Engineering (ELEN E1201)

Engineering Mechanics
**Mathematics**
Ordinary Differential Equations (MATH UN2030)
Or, students must take both an ODE and a Linear Algebra course.

**Additional**
*Mechanics (ENME E3105)
The department strongly recommends MATLAB over other languages, though it will accept any language.

Industrial Engineering, Engineering Management Systems or Operations Research
**Mathematics**
*Ordinary Differential Equations (MATH UN2030)
This course must be taken prior to Columbia for any student with interests in the Financial Engineering major. Students cannot apply to this major until they are already enrolled at Columbia (after the first semester in Columbia Engineering).

Choose one of the following two:
Linear Algebra (MATH UN2010) or
Applied Mathematics I: Linear Algebra (APMA E3101)

Choose one of the following two:
Probability for Engineers (IEOR E3658) or
Probability Theory (STAT GU4203)

Choose one of the following two:
Applied Statistical Models in Operations Research (IEOR E4307) or
Statistical Inference (STAT GU4204)

**Computer Science (choose one language pair)**
Introduction to Computer Science and Programming in Java (COMS W1004) and Data Structures in Java (COMS W3134) or
Introduction to Computing for Engineers and Applied Scientists in Python (ENGI E1006) and Essential Data Structures in C/C++ (COMS W3136)

The department strongly recommends Java over C/C++ with Python.

Earth and Environmental Engineering
**Mathematics**
Introduction to Applied Mathematics: Ordinary Differential Equations and Linear Algebra (APMA E2101)
Or, students must take both an ODE and a Linear Algebra course.

*Introduction to Probability & Statistics (STAT GU4001)
The course must have calculus, including multivariable integration, as a prerequisite.
Major-Specific Coursework
Courses noted with a * may be taken either before or during enrollment at Columbia.

**Industrial Engineering, Engineering Management Systems or Operations Research Cont.**

*Economics*
*Introduction to Accounting and Finance (IEOR E2261)*  
This course must be taken prior to Columbia for any student with interests in the Financial Engineering major. Students cannot apply to this major until they are already enrolled at Columbia (after the first semester in Columbia Engineering).

*Materials Science and Engineering*

*Mathematics*
Introduction to Applied Mathematics: Ordinary Differential Equations and Linear Algebra (APMA E2101)  
Or, students must take both an ODE and a Linear Algebra course.

*Computer Science*
Foundations of Data Science (ORCA E2500)  
Students must take a substantial equivalent to ORCA E2500 before coming to Columbia. Only students attending affiliates that do not offer an equivalent may take the course at Columbia.

Choose one of the following three:  
Introduction to Computer Science and Programming in Java (COMS 1004) or MATLAB (COMS105) or Python (ENGI E1006).

**Additional**

*Introduction to Electrical Engineering (ELEN E1201)*  
*Mechanics (ENME E3105)*  
Choose one of the following three:  
Introduction to Computer Science and Programming in Java (COMS 1004) or MATLAB (COMS105) or Python (ENGI E1006).

**Economics**

*Introduction to Accounting and Finance (IEOR E2261)*  
This course must be taken prior to Columbia for any student with interests in the Financial Engineering major. Students cannot apply to this major until they are already enrolled at Columbia (after the first semester in Columbia Engineering).

*Materials Science and Engineering*

*Mathematics*
Introduction to Applied Mathematics: Ordinary Differential Equations and Linear Algebra (APMA E2101)  
Or, students must take both an ODE and a Linear Algebra course.

*Computer Science*
Foundations of Data Science (ORCA E2500)  
Students must take a substantial equivalent to ORCA E2500 before coming to Columbia. Only students attending affiliates that do not offer an equivalent may take the course at Columbia.

Choose one of the following three:  
Introduction to Computer Science and Programming in Java (COMS 1004) or MATLAB (COMS105) or Python (ENGI E1006).

**Additional**

*Introduction to Electrical Engineering (ELEN E1201)*  
*Mechanics (ENME E3105)*  
Choose one of the following three:  
Introduction to Computer Science and Programming in Java (COMS 1004) or MATLAB (COMS105) or Python (ENGI E1006).

**Economics**

*Introduction to Accounting and Finance (IEOR E2261)*  
This course must be taken prior to Columbia for any student with interests in the Financial Engineering major. Students cannot apply to this major until they are already enrolled at Columbia (after the first semester in Columbia Engineering).

**Materials Science and Engineering**

*Mathematics*
Introduction to Applied Mathematics: Ordinary Differential Equations and Linear Algebra (APMA E2101)  
Or, students must take both an ODE and a Linear Algebra course.

*Computer Science*
Foundations of Data Science (ORCA E2500)  
Students must take a substantial equivalent to ORCA E2500 before coming to Columbia. Only students attending affiliates that do not offer an equivalent may take the course at Columbia.

Choose one of the following three:  
Introduction to Computer Science and Programming in Java (COMS 1004) or MATLAB (COMS105) or Python (ENGI E1006).

**Additional**

*Introduction to Electrical Engineering (ELEN E1201)*  
*Mechanics (ENME E3105)*  
Choose one of the following three:  
Introduction to Computer Science and Programming in Java (COMS 1004) or MATLAB (COMS105) or Python (ENGI E1006).

**Economics**

*Introduction to Accounting and Finance (IEOR E2261)*  
This course must be taken prior to Columbia for any student with interests in the Financial Engineering major. Students cannot apply to this major until they are already enrolled at Columbia (after the first semester in Columbia Engineering).

**Materials Science and Engineering**

*Mathematics*
Introduction to Applied Mathematics: Ordinary Differential Equations and Linear Algebra (APMA E2101)  
Or, students must take both an ODE and a Linear Algebra course.

*Computer Science*
Foundations of Data Science (ORCA E2500)  
Students must take a substantial equivalent to ORCA E2500 before coming to Columbia. Only students attending affiliates that do not offer an equivalent may take the course at Columbia.

Choose one of the following three:  
Introduction to Computer Science and Programming in Java (COMS 1004) or MATLAB (COMS105) or Python (ENGI E1006).

**Additional**

*Introduction to Electrical Engineering (ELEN E1201)*  
*Mechanics (ENME E3105)*  
Choose one of the following three:  
Introduction to Computer Science and Programming in Java (COMS 1004) or MATLAB (COMS105) or Python (ENGI E1006).

**Economics**

*Introduction to Accounting and Finance (IEOR E2261)*  
This course must be taken prior to Columbia for any student with interests in the Financial Engineering major. Students cannot apply to this major until they are already enrolled at Columbia (after the first semester in Columbia Engineering).

**Materials Science and Engineering**

*Mathematics*
Introduction to Applied Mathematics: Ordinary Differential Equations and Linear Algebra (APMA E2101)  
Or, students must take both an ODE and a Linear Algebra course.

*Computer Science*
Foundations of Data Science (ORCA E2500)  
Students must take a substantial equivalent to ORCA E2500 before coming to Columbia. Only students attending affiliates that do not offer an equivalent may take the course at Columbia.

Choose one of the following three:  
Introduction to Computer Science and Programming in Java (COMS 1004) or MATLAB (COMS105) or Python (ENGI E1006).

**Additional**

*Introduction to Electrical Engineering (ELEN E1201)*  
*Mechanics (ENME E3105)*  
Choose one of the following three:  
Introduction to Computer Science and Programming in Java (COMS 1004) or MATLAB (COMS105) or Python (ENGI E1006).

**Economics**

*Introduction to Accounting and Finance (IEOR E2261)*  
This course must be taken prior to Columbia for any student with interests in the Financial Engineering major. Students cannot apply to this major until they are already enrolled at Columbia (after the first semester in Columbia Engineering).

**Materials Science and Engineering**

*Mathematics*
Introduction to Applied Mathematics: Ordinary Differential Equations and Linear Algebra (APMA E2101)  
Or, students must take both an ODE and a Linear Algebra course.

*Computer Science*
Foundations of Data Science (ORCA E2500)  
Students must take a substantial equivalent to ORCA E2500 before coming to Columbia. Only students attending affiliates that do not offer an equivalent may take the course at Columbia.

Choose one of the following three:  
Introduction to Computer Science and Programming in Java (COMS 1004) or MATLAB (COMS105) or Python (ENGI E1006).

**Additional**

*Introduction to Electrical Engineering (ELEN E1201)*  
*Mechanics (ENME E3105)*  
Choose one of the following three:  
Introduction to Computer Science and Programming in Java (COMS 1004) or MATLAB (COMS105) or Python (ENGI E1006).

**Economics**

*Introduction to Accounting and Finance (IEOR E2261)*  
This course must be taken prior to Columbia for any student with interests in the Financial Engineering major. Students cannot apply to this major until they are already enrolled at Columbia (after the first semester in Columbia Engineering).

**Materials Science and Engineering**

**Additional**

*Introduction to Electrical Engineering (ELEN E1201)*  
*Mechanics (ENME E3105)*  
Choose one of the following three:  
Introduction to Computer Science and Programming in Java (COMS 1004) or MATLAB (COMS105) or Python (ENGI E1006).

**Economics**

*Introduction to Accounting and Finance (IEOR E2261)*  
This course must be taken prior to Columbia for any student with interests in the Financial Engineering major. Students cannot apply to this major until they are already enrolled at Columbia (after the first semester in Columbia Engineering).

This curriculum guide is only applicable to students who began college in Fall 2018. Students who began college in a different term are subject to different admissions policies and a different Curriculum Guide. Courses listed are accurate as of October 2018.
Important Policies about Prerequisite Coursework

All prerequisite coursework must appear on the home institution’s transcript. Columbia requires all official transcripts, and liaisons must approve all coursework not taken at the affiliate institution. We will accept AP/IB or other advanced credit from high school as well as placement exams if the credit or exam clearly appears on the home institution’s transcript and is approved by the liaison. Columbia reserves the right to have the student demonstrate this knowledge and/or retake this course.

The overall GPA will be calculated by Columbia using all postsecondary courses for which a student has received credit on the home institution’s transcript. The pre-engineering GPA will be calculated by Columbia using all of the prerequisite coursework listed, with the exception of the courses fulfilling the lab requirement and humanities and social science requirements.

Due to the sequential nature of the engineering major coursework, prerequisite coursework cannot be taken while at Columbia and must be completed by the spring semester of application. Courses noted with * are excluded from this requirement, as they may be taken once at Columbia. Students may present course syllabi to request placement out of these courses once at Columbia.

Major requirements comprise the sequence of courses required to complete a major or primary course of study from the home institution. Degree requirements are courses, as listed in the home institution’s course catalog, that are required to obtain a degree from the home institution. A student does not need to complete the full number of course credits required for the degree (e.g., the full 128 credits), as the home institution will accept course credits from Columbia to complete this degree. Subsequently, 3-2 candidates cannot receive their degree from the home institution until the two years at Columbia are successfully completed.

Financial Aid Policies

Financial aid is available for Combined Plan students. Applicants should note:
• Columbia awards no merit scholarships; all financial aid is need-based only.
• Admission to the Combined Plan program is need-blind; financial need does not affect one’s chances of admission.
• We do not guarantee that we can meet 100% of demonstrated financial need for all Combined Plan students.
• Very limited financial aid is available for international students.
• Candidates are not guaranteed the same financial aid package that they may have received at their home institutions.

Housing at Columbia

Housing is guaranteed for Combined Plan students in their first year only; there is no guarantee that on-campus housing will be available in their second year. Off-Campus Housing Assistance at Columbia can assist students in their search for housing in the New York metropolitan area.

Brandeis University – Non-Technical Electives
*Please use this with the Columbia guide in order to best plan your course choices*

The Columbia 3-2 Plan requires you to take 7 non-technical electives at Brandeis. ECON 2A or 10A and your UWS count as 2 of these, so that leaves you with 5 additional non-technical electives that you need to take.

Below are some explanations of what will count towards this requirement.

| African- American Studies: All courses | Hispanic Studies: All courses |
| American Studies: All courses | History: All courses |
| Anthropology: All courses in sociocultural anthropology | Italian Studies: All courses |
| All courses in archaeology except field work | Language and Linguistics: All courses except cognitive linguistics courses |
| No courses in biological/physical anthropology | Latin American and Latino Studies: All courses |
| Art History: All courses | Medieval and Renaissance Studies: All courses |
| Classics: All courses | Music: All courses except performance, instruction, or workshop courses |
| Comparative Literature: All courses | Philosophy: Check first with Academic Services |
| Creative Writing: All courses | Politics: Check first with Academic Services |
| Dance: All courses except performance classes | Psychology: Check first with Academic Services |
| East Asian Languages and Culture: All courses | Religious Studies: All courses |
| Economics: Check first with Academic Services | Sociology: Check first with Academic Services |
| Education: All courses | Studio Art: Only one upper-level course can be accepted |
| English: All courses | Theater: All courses except workshop, rehearsal, performance, or technical courses (THA 15b – Public Speaking does count! THA 138a does not count.) |
| Film, TV, and Interactive Media: All courses except any lab/workshop or independent study courses | Women’s and Gender Studies: All courses |
| French and Francophone Studies: All courses | |
| German Studies: All courses | |

For more information see Columbia’s listing: http://bulletin.engineering.columbia.edu/b-elective-nontechnical-courses
Brandeis Columbia 3-2 Planning Worksheet

Begin by filling out your plan to complete the Brandeis and Columbia requirements (left column). Then make sure each class has a place in your academic plan (right column).

### Brandeis University Requirements:
- Univ Writing Seminar (UWS)
- Writing Intensive Course (WI)
- WI or Oral Communication
- Foreign Language
- Physical Education (two courses)
- Non-Western Comparative
- Quantitative Reasoning
- Creative Arts
- Humanities
- Science
- Social Science

### Brandeis Major:

### Columbia Foundation Requirements:
* B or higher required for guaranteed admission.
  - Math 10a
  - Math 10b
  - Math 20a
  - Physics 11a or 15a
  - Physics 11b or 15b
  - Chemistry 11a or 15a
  - One semester Chem or Physics Lab
  - Cosi 10a or 11a or 12b or 177a
  - Econ 2a or 10a

### Non-Technical Electives
Five Humanities or Social Science courses:
* Can overlap with University Requirements, can be taken Pass/Fail in compliance with Brandeis policy. See Columbia chart of eligible courses.

### Eligible AP/IB credits (if applicable)
