

Anne Carter Economics Honors Research Fund

Professor Carter, Brandeis's first female Dean of Arts and Sciences from 1981 to 1986, was known by aspiring women economists as "a voice for keeping ambitious goals for research. .."

The Carter family has generously created a fund to assist economics majors in their research for the Economics Senior Honors Thesis Program. The funds are available for data, travel, and other eligible expenses. All expenses must be pre-approved by program coordinators and are limited to only those students enrolled in Economics 99a & 99b. For further information, please contact Leslie Yancich at lesliey@brandeis.edu.
