Unmanned Aerial Vehicles

Policy Statement
This policy is established as an interim measure while the Drone Committee gathers more information about the constructive uses of Unmanned Aerial Vehicles (UAV's), available training and certification programs, evolving federal regulations and experience on other campuses. Until permanent guidelines are developed there shall be no recreational UAV flying at Brandeis University.

Applicability
This policy applies to indoor and outdoor flying of Unmanned Aerial Vehicles (UAV or drones) from or above Brandeis University property.

Guidelines:
The indoor use of UAV's in teaching and research is permitted, with appropriate training, supervision and notification of space administrators.
Outdoor teaching or research uses of UAV's also require the permission of the Federal Aviation Administration (FAA).

This policy is for general guidance only. It does not create an employment contract or any right to continued employment at Brandeis University. Brandeis University reserves the right to modify, revoke, suspend, terminate and/or change any and all policies and procedures at any time, with or without notice.
