

The MRSEC Education, Outreach and Diversity Director (**A. Olivier-Mason**) developed a new resource called, the Science Communication Lab (SciComm Lab). Modeled after a successful Center with the same name at MIT, the Brandeis SciComm Lab provides one-on-one coaching and just-in-time workshops to students and postdocs at Brandeis. The trained graduate student and postdoc Communication Fellows support the Brandeis scientific community with the skills they need to communicate the rationale, process and results of their incredible science to any audience in written, spoken or visual form. More information is available on their website:
<http://sciences.brandeis.edu/index.php/brandeis-science-communication-lab/>

The SciComm Lab Team

Joia, Fellow
Physics Ph.D. candidate

Gabe, Fellow
Physics Ph.D. candidate

Steve, Fellow
Rodal Lab Postdoc

Jennifer, Fellow
Chemistry Ph.D. candidate

Tim, Fellow
Griffith Lab Postdoc

Madelen, Fellow
Neuroscience Ph.D. candidate
