

Bystander Intervention Level 2: Supporting Those Impacted by Violence

Remember, this training focuses on strategies for supporting someone if they tell you they've experienced violence.

WHAT NOT TO DO:

- Ask unnecessary questions (Where were you?)
- Minimize (I'm sure they didn't mean to...)
- Tell them what to do (You MUST...)
- Make it about yourself (I'm going to kill them!)

WHAT TO DO:

- **Validate:**
Let them know you hear them
- **Support:**
Offer to connect them to a resource
- **Report:**
Let them know you must share with OEO, but they decide what happens next.
