# University Organization

---

## Board of Trustees

---

Under Massachusetts law, the Board of Trustees is the governing body of the university. There are four faculty representatives and three student representatives to the board who participate in board meetings and have votes on the several committees. The president of the university, the chair of the Fellows, the president of the Brandeis National Committee, and the president of the Alumni Association serve ex officio. The board annually elects an alumni term trustee who serves a four-year term with full voting privileges.

### The President

The president, the chief executive officer of the university, is appointed by the Board of Trustees and is responsible for all university activities.

### Board of Fellows

University Fellows comprise about 225 national leaders from a broad base of business, educational, and public life who lend counsel, expertise, and support to university development and planning programs.

## The Provost and Deans

---

The provost and senior vice president for academic affairs is the chief academic officer of the university with administrative authority under the president for setting and implementing academic policy. The provost provides strategic leadership for the academy to achieve the university's academic mission and to improve the quality of the institution's teaching, learning, and scholarship.

The provost is responsible for academic governance and strategic planning for Arts and Sciences, the Heller School for Social Policy and Management, the International Business School, the Rabb School for Continuing Studies, the University Libraries, the Rose Art Museum, and various centers and institutes. Other responsibilities include sponsored research administration and technology licensing.

The dean of arts and sciences has administrative responsibility for undergraduate research and, with the dean of the graduate school, the graduate functions of the school of arts and sciences. The dean is responsible for the undergraduate and graduate curricula, faculty, staffing, oversight of academic departments, and other academic matters.

The dean of the Heller School for Social Policy and Management oversees the academic activities of the school and its work in such policy areas as children, youth, families, health, mental health, substance abuse, disabilities, aging, social change, and economic inequalities.

The dean of the Brandeis International Business School oversees the academic, professional, and development activities of the university's second professional school. Research areas of the school include economic policy, finance, global entrepreneurship, international business, regional economics integration, and trade and exports.

## The Faculty Senate

---

The Faculty Senate, elected by the Faculty as its official representative body, addresses matters relevant to the educational and research missions of the university, including academic freedom, faculty rights and responsibilities, governance, and university policies regarding appointments, tenure, and promotion.

## The Vice Presidents

---

The executive vice president and chief operating officer oversees Brandeis's financial and administrative operations. The office's major responsibilities include budget and planning, financial accounting, capital programs (planning, design, and construction), endowment and investment management, information technology, procurement services, plant operations, human resources, public safety, and internal audit. The executive vice president serves as principal liaison to the following committees of the Board of Trustees: Budget and Finance; Investment; Physical Facilities; Personnel, Compensation, and Ethics; and Audit.

The senior vice president for institutional advancement is responsible for directing the fundraising and external relations activities, including planned giving, leadership gifts, the Annual Fund, alumni events and services, and corporate and foundation relations, in addition to a major multi-year capital campaign.

The senior vice president for students and enrollment oversees the recruitment, retention, and quality of life for students. Departments and units reporting to the senior vice president include undergraduate admissions, student financial services, registrar's office, academic services (including advising, disability services,

study abroad, international students and scholars, and student enrichment services), Hiatt Career Center, research and planning, and student life (including athletics, chaplaincy, community service, health services, intercultural center, judicial orientation, psychological counseling, residence life, and student activities).

The senior vice president for communications administers and executes critical university-wide internal and external communications, overseeing the communications emergency response plan and directing all crisis communications. Further, she is responsible for an integrated marketing communications program that highlights Brandeis's research accomplishments, academic excellence, social justice mission, and scholarly contributions to the Jewish community. Under the direction of the senior vice president, the Office of Communications provides design and editorial services for print and Web publishing, as well as carries out the university's public affairs and media relations initiatives.

The senior vice president and general counsel is the chief legal advisor to the president, the Board of Trustees, and the university's senior management officers.

## Brandeis National Committee

---

The Brandeis National Committee (formerly BUNWC) is an organization committed to providing financial support to the university. Since its founding in 1948, it has contributed more than \$110 million to the libraries for the acquisition of books and research journals, restoration and preservation, development of computer technology, and student work assistance. More recently, its mission was expanded to fund student scholarships and fellowships.

The organization's national center is located in the Goldfarb Library, where professional staff members collaborate with volunteers and the university to coordinate fundraising efforts and to develop educational programs for members within chapters across the country. The National Women's Committee connects its members to Brandeis through fundraising and through activities that reflect the values of the university.

### Brandeis University Pertaining to Religious Observance

In constructing the academic calendar, religious holy days will not be the sole factor in determining days on which classes will be held or suspended. It is the policy of the university, however, that students be encouraged to observe their appropriate religious holy days; that instructors strive to facilitate this by allowing absence from classes for such purposes and by trying to ensure that no

examinations, written reports, oral reports, or other mandatory class assignments are scheduled for or due on such holy days; and that instructors provide ample opportunities for such students to make up work missed on such occasions without penalty. Jewish holidays begin at sundown of the previous evening and end at nightfall of the day listed.
