Goldfarb 230, Computer Classroom *(TEC Rm.)*   No *Access Code Needed.*

This room utilizes a wall mounted, rear projection screen.

Displaying video sources

1. Use the black, pop-up touch panel on top of the Instructor Station. Push **DOWN** on the cover to access the pop-up controls. The station rolls about 4' in the instructor area! *Roll back when done!*
2. **"Touch anywhere"** on the screen to begin. Select a source to begin. *No controls will function as the projector warms up.*
3. **After the warm up period, be sure you have selected your preferred input using the appropriate buttons on the touch panel**. **(Buttons illuminate when active.) There is a four (4) second lock out period after input selection, when you cannot jump to another source. Just re-select your source after the (4) seconds.**
   a. **PC/LAPTOP** will display the PC, installed inside the station. **We recommend an s-xga resolution of 1280x1024 for best results.** *This PC provides courtesy USB jacks located on the front, and a wireless mouse/keyboard.*
   b. **Laptop** connections are provided via a VGA cable with an attached audio cable, accessed thru a grommet opening on the station. The system will **auto-detect**, and switch to your laptop when properly connected. A power plug is available in the pop-up controller. **MAC users should provide their own Mac adapter.**
   c. **DVD** selects the DVD player, stored inside the Instructor Station. DVD menu and playback functions are controlled @ the touch panel. *CD's can be played through the DVD play (or the PC).*
   d. **VCR** selects the VHS/VCR player, inside the Instructor Station. Flip down its front door to insert a tape. Playback functions are controlled @ the touch panel.
   e. **AUDIO raise & lower** controls are located right on the pop up controller. An audio status bar appears on the touch panel.
   f. **A/V MUTE** blanks your image until you push a 2nd time.
   g. **AUDIO MUTE** silences audio until you push a 2nd time.
4. **PC LOGON TIPS:** **Use your UNET name and password, in the USERS domain. **
5. **Laptops with wireless cards:** by opening a browser, they may be logged on using a UNET name and password, or as a guest account using a personal email address.

Computer Lab PC Audio Inserts

Sound maybe routed from most PC's in the Lab. Individual PC's are selected, and volume levels controlled from the touch panel. *(Connecting cables should be requested from MTS in advance.)*

1. You can also provide further audio level adjustment at each PC using its own sound control device.
2. Select the **Student Stations** button, and from there, select the appropriate PC station.
3. **AUDIO raise & lower** controls are located right on the pop up controller.
4. **Please contact MTS for further assistance with this feature.**

When Finished

1. **Press the EXIT SYSTEM button and follow instructions.**
2. **Please be sure the projector begins its shut down process.**
