# Slosberg 212

*(TEC classroom – level B)*
**This room utilizes a ceiling-mounted projector, focused on a wall-mounted pull down screen.**

## Displaying Video or Computer Sources

1. At the Instructor Station. Push DOWN on the black system controller to access controls. Touch the screen to begin.
2. Press the **PC (or any source)** button to turn on the display system. The projector will take over a minute to warm up. *No controls will function during warm up.*
3. After the warm up, you can select another source using the appropriate buttons. *(Buttons illuminate when active.) It's recommended to wait a few seconds between input selections.*
   - Press the **PC/LAPTOP** button to display either the installed Instructor PC or a user-provided laptop. *There are courtesy USB ports on the front of the Instructor PC.* The vga cable is provided at the instructor station. *When PC/LAPTOP has been pressed, the system will auto-detect and switch to a properly connected laptop.*
   - Press the **HDMI** button to activate the *Digital HDMI* cable as your laptop source. This cable is provided at the instructor station. Beyond the buttons, *the system will attempt to auto-detect, and switch to a laptop when properly connected. Users must provide their MAC & DisplayPort adapters.*
   - Press the **DVD** button to select the **DVD player**. A disc control page will appear on the touch panel allowing you to control the player.
   - Press the **VCR** button to select the **VHS player**, if one exists in your room, *The VCR button will be marked as inactive if there is no VHS player in your room.* Please note: legacy VHS stock is declining.
   - Press the **CD** button to select the installed **CD player**. A disc control page will appear on the panel allowing you control.
   - The **AUX AV** button activates front rack-panel inputs, allowing you to connect external video devices, such as a VHS player or camcorder.
   - You can also **play audio** by connecting your mobile device/media player to the stereo (3.5mm) connector on the rack panel. *This input is always active.*
4. **PC LOGON**: ***Use your UNET name and password, in the USERS domain. ***
5. *Wireless **laptops** may be registered using your UNET name and password, or you can logon as a guest, using a personal email address. Open a browser to access the log on process.*
6. The **IMAGE MUTE**, **AUTO-IMAGE** and **ASPECT RATIO** buttons allow further adjustment of images on the screen

## Audio Controls

1. Be sure the **SOURCE VOLUME** button is selected. Then, press the **VOLUME ^. VOLUME v** arrows, or the **MUTE** button to control audio levels.
2. If a microphone is connected, these buttons will control them after you press the **MIC VOLUME** button. Microphone usage would typically be viable for those recording / capturing or sending to an Assisted Listening Device.

## When Finished

To finish and shut down, press the red **SYSTEM OFF** button, and confirm by pressing **POWER DOWN**. **SAVE LAMP LIFE: Be sure the projector begins to power off with its 90 second cool down process!**
